Chaz Taylor Inc. Helps Telcos Across the Country Share a True Grassroots Message at the NTCA and OPASTCO Legislative Conferences

With issues before our nation's leaders of such dire consequence to Rural America, Chaz Taylor Inc. is providing a unique way to make sure our leaders understand the grassroots efforts behind the message telcos bring to them during the industry legislative conferences and fully comprehend the force of numbers behind the points being made.

The program, which includes a banner highlighting the specific points of the message from Rural America and signed by telco employees and community members, provides a unique opportunity for telco leaders to demonstrate that they are truly representing Rural America. Photographic opportunities of the banner signing, accompanied by a press release explaining the issues, provides an opportunity for the telco to let the community know of its mission to take the voice of Rural America to our leaders.

This program is open to all telcos. For more information, contact Sheila Davis at 615-292-0063 or Sheila@chaztaylor.com.
